

Permanent Magnet Frequency Conversion Food Waste Disposer

This food waste disposer utilizes grinding technology to process food waste into fine particles, which are then mixed with water to prevent sewer blockages. It features a bladeless grinding treatment and is equipped with a pneumatic switch for easy operation.

Product Overview

Advanced Waste Management Solution

This intelligent permanent magnet frequency conversion food waste disposer is engineered for modern, efficient kitchen waste management. Utilizing advanced frequency conversion technology and a powerful 475W BLDC motor, it ensures consistent performance while optimizing energy consumption. The unit features a blade-less grinding design for enhanced safety and incorporates Bio-guard antibacterial agents to prevent odors and secondary pollution.

Technical Specifications

Motor Power

475 W

Power Output

Motor Technology

Permanent Magnet BLDC Motor

Grinding Mechanism

Blade-less grinding

Features & Benefits

Key Features

- Frequency conversion technology for energy efficiency
- Anti-sedimentation water flow design
- Bio-guard antibacterial protection
- Pneumatic one-key switch operation

Warranty & Standards

5-Year Warranty • American Technology Standards
