Product Overview

Heavy-duty permanent magnetic lifter designed for secure material handling.

Professional Permanent Magnetic Lifter

This high-performance magnetic lifter offers a reliable and easy-to-operate solution for handling ferrous materials. Featuring a compact and lightweight design, it allows for efficient lifting without the need for electricity, making it ideal for diverse industrial field operations. With a robust maintenance-free construction and a built-in safety insurance device to prevent accidental operation, this tool ensures long-term durability and consistent performance.

Technical Specifications

MRCM 美日 机床
MIRAI MACHINE TOOLS

CE

Precision-engineered components built for demanding industrial environments.

Rated Capacity

600 KG

Capacity

Performance Metrics

- 3 times safety factor
- Maximum pulled off force 3-3.5 times
- Suitable for circular workpieces
- Field operation ready

Safety and Design

No Electricity Required, Maintenance-Free, V-Groove Design, Insurance Device Included
