

Personal Portable Electric Fan

This is a compact and portable electric fan designed for personal use. It features a plastic housing with horizontal grills and includes a handle for easy carrying.

Overview

Compact Personal Cooling Solution

This portable electric fan is engineered for personal comfort in compact spaces. Featuring a lightweight design with an integrated handle, it offers easy mobility for use on desks, bedside tables, or small work areas. The unit provides directed airflow through its horizontal grill design, ensuring efficient cooling exactly where you need it most.
