

Petrol Chainsaw for Tree Felling and Pruning

This petrol chainsaw is a powerful and reliable tool designed for demanding cutting tasks. Equipped with a high-performance petrol engine, this chainsaw delivers exceptional power and efficiency.

Product Overview

Professional Performance and Reliability

This petrol-powered chainsaw is engineered for demanding tasks including tree felling and pruning. It features a robust engine with an integrated clean air-intake system, ensuring consistent power and long-term durability. Designed with user comfort in mind, it incorporates an effective anti-vibration system and ergonomic controls to reduce fatigue during extended operation.

Engine and Performance

Key Engine Functions

- Primer bulb for easy cold starts
- Engine clean air-intake system
- Automatic oil pump and chain lubrication
- Combination throttle and switch structure

Operations and Maintenance

Compliance and Standards

Voluntary inspection by approved test centre

Optional Configurations

Available Upgrades

Easy on recoil start • SDS tool-less tensioner
