

PH16 Mesh LED Display Screen

The PH16 mesh screen is a high-performance electronic display with a 16mm pixel pitch, suitable for indoor and outdoor environments. Its mesh design allows airflow and reduces wind resistance, ideal for large-scale installations.

Product Overview

High-Performance Mesh LED Display

The PH16 Mesh LED Display Screen is a versatile, high-transparency solution designed for large-scale visual impact. With a 16mm pixel pitch, it strikes an optimal balance between resolution and brightness, making it suitable for both indoor and outdoor environments. Its unique mesh construction promotes airflow and minimizes wind resistance, ensuring stability in demanding installations like architectural lighting and stage backdrops.

Technical Specifications

Typical Applications

- Architectural Lighting
- Stage Backdrops
- Advertising Displays

Pixel Pitch	16 mm
Key Features	High Brightness, Wide Viewing Angle, Low Power Consumption, Wind Resistant, Transparent Design
