

Pharmaceutical Double Doors with Diamond Accents

These double doors are designed for pharmaceutical environments. They feature a decorative header with geometric patterns, diamond accents, paneled doors with rectangular insets, and ornate handles.

Product Overview

Sophisticated Design for Sterile Environments

These pharmaceutical double doors combine robust functionality with high-end aesthetic appeal, making them an ideal choice for specialized facility entrances. Featuring intricate geometric patterns and distinctive diamond accents, the doors offer a professional appearance without compromising on design quality. The heavy-duty construction ensures durability, while the ornate detailing provides a welcoming yet secure entry point for pharmaceutical settings.
