Product Overview

Industrial Bearing Solutions

These pillow block bearing units are engineered for robust performance and reliable rotational support in demanding industrial environments. Featuring durable housing options and pre-lubricated bearing inserts, they are designed for easy installation and extended service life. The self-aligning capabilities and sturdy construction make them suitable for a wide range of machinery frames and structural applications.

Bearing Unit Series

Supported Series

- UCP200
- UCF200
- UCFL200

Plummer Block Housings

Available Housing Types

SNL500/200, SNL3100, SD3100/500/600

Adapter Sleeves

Compatible Adapter Sleeves

- H200
- H300
- H2300
- H3000
- H3100
