

Pipe Clamp with Rubber Lining

This pipe clamp is designed to secure pipes to walls or ceilings. It features a metal band with a rubber lining, a threaded rod for attachment, and a plastic anchor for fixing.

Product Overview

Professional Pipe Mounting Solution

This pipe clamp is engineered for secure and reliable pipe installation in plumbing and construction environments. Featuring a durable metal band with an integrated rubber lining, it provides excellent vibration dampening and sound insulation while protecting the pipe surface. The included threaded rod and plastic anchor system allow for straightforward, stable mounting to walls or ceilings.

Technical Specifications

Applications

- Plumbing systems
- Construction projects
- Wall mounting
- Ceiling mounting

Key Features
