

Pipe Dividing Machine

This pipe dividing machine is designed for accurate and efficient cutting. It features robust construction and adjustable settings for various pipe diameters and cutting lengths.

Overview

High-Efficiency Pipe Dividing Solution

This precision pipe dividing machine is engineered for the accurate and efficient cutting of metal pipes in industrial environments. Featuring a robust construction, it ensures stability and durability during high-volume operations. With advanced safety features including infrared sensors, it combines powerful cutting performance with essential operator protection.

Performance Metrics

Cutting Capacity

10 pcs/min
Pieces per Minute

600 pcs/h
Hourly Output

Operating Pressure

4 Mpa

Technical Specifications

Power Rating

2.6 KW

Dimensions (L x W x H)

2200mm x 1290mm x 1120mm

Machine Weight

380 kg

Features & Advantages

Key Advantages

- Strong cutting force suitable for both thin and thick materials
- High-quality cut with minimal burr on edges
- Integrated infrared sensor for enhanced operator hand safety

Safety Features

Infrared Sensor, Hand Protection
