Product Overview

Professional Grade Pipe Holding Vice

This Spanish-type pipe vice is a robust, heavy-duty tool engineered for secure pipe handling during cutting, threading, and maintenance tasks. Constructed from durable cast iron, it provides exceptional stability and reliable clamping pressure through its precision screw-operated mechanism. The hardened V-shaped jaws ensure a firm grip on various pipe diameters without causing surface damage, making it an essential asset for plumbers, pipefitters, and industrial maintenance professionals.

Technical Specifications

Construction Material	Heavy-duty cast iron
Clamping Type	Screw-operated
Jaw Configuration	Hardened V-shaped jaws

Application & Usage

Suitable Applications	Plumbing, Pipe Fitting, Industrial Maintenance, Pipe Cutting, Pipe Threading
