

Pipe Threading Machine

This threading machine is a robust tool designed for threading pipes with precision. Its compact design and portable stand ensure easy transportation and maneuverability on job sites.

Product Overview

Professional Pipe Threading Solution

This heavy-duty pipe threading machine is engineered for precision and reliable performance in demanding construction and plumbing environments. Featuring a powerful universal motor and an integrated oiling system, it provides consistent results for various threading applications. The machine's robust design and user-friendly features, such as self-centering cutters and a through-the-head lubrication system, ensure efficient operation and extended tool lifespan.

Technical Specifications

Motor Power

1500 W

Power Input

38 rpm

No Load Speed

Size and Weight

Metric	Value
Gross Weight	90 kg
Net Weight	75 kg
Measurements	78 x 58 x 50 cm

Electrical Requirements

115V, 220V, 50/60Hz

Performance Capabilities

Threading Range

- BSPT (1/2" - 2")
- NPT (1/2" - 2")

Key Features

Primary Equipment Features

- Self-Opening Die Head
- 1/8" - 2" Five Flute Cone Reamer
- Self-centering, Full-floating Cutter
- Through-the-head Oiling System
- Integral Oil Reservoir
