

Pipe Threading Machine

This pipe threading machine is designed for efficiently threading pipes with precision. It features a powerful motor and durable construction for reliable performance in demanding environments.

Product Overview

Professional Pipe Threading Solution

The TQ150-AD pipe threading machine is a robust tool designed for high-efficiency threading in demanding professional environments. Featuring a high-performance motor and durable construction, it provides precise thread cutting for pipe sizes ranging from 2-1/2 to 6 inches. With integrated safety features and a cooling system to preserve cutting die longevity, this machine is an ideal asset for plumbing and construction professionals.

Technical Specifications

Included Components

- Die head
- Threading dies

Threading Capacity

2-1/2" - 6"

Features

Safety Certifications/Features

Emergency stop button, Protective guard, Self-centering chuck
