

Pipe Vise with Adjustable Clamping

This heavy-duty pipe vise is designed for secure clamping and holding of pipes. It features a robust cast iron construction for durability and stability, with a top screw mechanism for adjustable clamping pressure.

Product Overview

Professional Grade Pipe Vise

This heavy-duty pipe vise is engineered for secure clamping and stability during demanding plumbing and metalworking tasks such as cutting and threading. Constructed from robust cast iron, it ensures long-lasting durability in industrial and construction environments. The adjustable top screw mechanism provides precise clamping pressure for a variety of pipe sizes, while the integrated mounting base allows for a stable, secure attachment to any workbench.

Construction & Design

Material	Cast Iron
Mounting	Yes
Clamping Type	Adjustable top screw with handle

Usage & Applications

Primary Applications	Plumbing, Construction, Metalworking, Pipe Cutting, Pipe Threading
