

Pistol Style Igniter for Textile Machinery

Precision-engineered pistol lighter designed for apparel and textile machinery. Constructed from durable materials for reliable performance and longevity in demanding industrial environments.

Product Overview

Precision Ignition for Textile Machinery

This pistol-style igniter is precision-engineered specifically for apparel and textile machinery applications. Constructed from durable, high-grade materials, it is built to withstand the demanding conditions of industrial environments while ensuring consistent and reliable performance. Its robust design allows for seamless integration into existing machinery setups, making it an essential component for efficient textile production operations.

Technical Specifications

Build Quality

Industrial Grade • Durable Construction • High Reliability

Available Model Numbers

SL-04, SL-05, SL-06

Primary Application

Apparel and Textile Machinery
