

PLA Ice Cream Spoon Set

This set includes multiple PLA ice cream spoons. Each spoon features a slender handle and a uniquely shaped head for scooping ice cream.

Product Overview

Eco-Friendly Ice Cream Spoons

This set of ice cream spoons is crafted from PLA, offering a sustainable alternative to traditional plastic utensils. Designed with a slender handle and a specialized head for scooping, these spoons are both functional and aesthetically pleasing. The set includes a variety of soft, appealing colors, making them an excellent choice for dessert shops, cafes, and catering services looking for eco-conscious serving solutions.
