

Planet Gear for Wheel Loaders and Excavators

This planet gear is suitable for use in wheel loaders and excavators. It is precision-engineered to provide reliable power transmission.

Product Overview

High-Performance Planet Gear

This precision-engineered planet gear is designed for heavy-duty applications in wheel loaders and excavators. Built to withstand high torque and demanding operating conditions, it ensures reliable power transmission and a long service life. The component is manufactured to meet rigorous quality standards, making it an ideal choice for maintaining optimal machinery performance.

Technical Details

Part Number	29070000561
Compatible Equipment	Wheel Loader, Excavator

Quality & Compliance

Certifications
CE • ISO

Service & Warranty

Warranty Coverage

6 months
Warranty Period

Service Policies

- 5-stage inspection process during operation
- Detailed pre-shipment photos and videos
- 100% compensation for shipping errors or damage
- Lifetime after-sales support
