Product Overview

Industrial Plasma Cutting Solution

The CUT-100 is a robust and versatile plasma cutting machine engineered for efficient, precise metal cutting in industrial environments. Utilizing advanced IGBT inverter technology, it ensures reliable performance and a heavy-duty cycle of 60%. Designed for both workshop and on-site versatility, the unit features a compact, portable frame with integrated wheels for easy transport.

Technical Specifications

Technology	IGBT Inverter
Duty Cycle	60 %
Model	CUT-100

Features & Controls

Interface

Digital Display • Pressure Gauge • Adjustable Regulator

Portability

Compact Design, Integrated Wheels

Compliance & Standards

Quality Standards	ISO 9001:2015, GB/T 19001-2016
