

Plasma Cutting Torch Consumable Kit

This kit contains replacement consumables for plasma cutting torches. It includes electrodes, tips, and a shield cup to maintain optimal performance.

Product Overview

Comprehensive Plasma Cutting Consumable Kit

This essential consumable kit is designed for high-performance plasma cutting torches, ensuring reliable operation and consistent cut quality. The set includes a complete range of electrodes, tips, and shield cups necessary for routine maintenance and optimal torch longevity. Engineered for durability and precision, these components help maintain peak performance across various industrial cutting applications.

Kit Contents

Included Components

- Standard Electrodes
- Standard Tips
- Long Electrodes
- Long Tips
- Shield Cup

Technical Specifications

Component Reference Table

Component Name	Reference Code
Electrode	E2002
Tip	T4001
Long Electrode	E2002L
Long Tip	T4002L
Shield Cup	3002

Compatibility & Usage

Torch Compatibility	P70 Torch
