

Plastering Trowel with Stainless Steel Blade

This plastering trowel is designed for smooth and efficient application of plaster and mortar. Its durable stainless steel blade ensures long-lasting performance, while the ergonomic handle provides a comfortable grip.

Product Overview

Professional Plastering Trowel

This high-quality plastering trowel is designed for the smooth and efficient application of plaster, mortar, and various finishing materials. Featuring a polished blade and an ergonomic comfort-grip handle, it is engineered to reduce fatigue during extended professional use. The durable construction ensures long-lasting performance and resistance to corrosion, making it an ideal tool for demanding construction tasks.

Physical Specifications

Dimensions

120 mm
Width

280 mm
Length

Blade Characteristics

- Polished finish
- Smooth edge (no square teeth)
- Corrosion resistant

Materials

Stainless Steel, Carbon Steel, TPR

Ergonomics & Design

Grip Design

Comfort-grip • Ergonomic

Handle Material

TPR (Thermoplastic Rubber)

Product Identification

Model Number

45304
