Product Overview

Efficient Ventilation Solution

This full plastic exhaust fan is designed for reliable and efficient air extraction in residential or commercial settings such as bathrooms and kitchens. Featuring a durable PP or ABS plastic panel with a robust metal frame, it is built for longevity and corrosion resistance. The unit utilizes a high-quality motor with specialized lubricants to ensure smooth, quiet, and long-lasting operation.

Technical Specifications

Construction Materials

- PP or ABS Plastic Panel
- Metal Frame

Mounting Type

Wall mounting

Frame Shape

Square

Control Options

Auto type, Switch control, Two-way operation

Compliance & Standards

Certifications

CE • CCC • GS • CB • UL
