

Plastic Paint Tray

This paint tray is made from sturdy plastic. It is suitable for use with various paint types, including latex and oil-based paints.

Product Overview

Professional Grade Paint Tray

This durable and reusable paint tray is engineered for efficiency and long-lasting performance. Featuring a specially designed ribbed roll-off area, it ensures even paint distribution on your rollers while the deep reservoir holds a sufficient volume of paint for extended use. Constructed from sturdy polypropylene, it is suitable for a wide variety of paint types, including both latex and oil-based formulations.

Technical Specifications

Material	Polypropylene (PP)
