Product Overview

High-Visibility Safety Solutions

This durable plastic safety barrier chain is constructed from high-quality polyethylene, offering excellent resistance to weathering, corrosion, and impact. Designed for maximum visual impact, it is ideal for creating temporary barriers, crowd control, and safety perimeters in both indoor and outdoor environments. The material features built-in anti-UV protection, ensuring long-lasting performance even when exposed to harsh sunlight.

Physical Properties

Material	Polyethylene (PE)
UV Protection	Yes
Color Options	Red, Yellow, Blue, White, Green, Black

Packaging & Logistics

Packaging Formats

- 25 meters per bag
- 30 meters per roll
- 50 meters per roll

Applications

Common Applications

Crowd Control • Traffic Direction • Safety Perimeters • Decorative Purposes • Temporary Barriers
