

Plastic Storage Container with Lid

Durable plastic storage container with a lid and integrated handles. Constructed from polypropylene, the lid securely snaps onto the base, providing a tight seal to keep contents safe from dust and moisture.

Product Overview

Professional Storage Solution

This durable plastic storage container is crafted from high-quality polypropylene to ensure long-lasting performance in both household and industrial settings. It features a secure snap-on lid that creates a tight seal, effectively protecting stored items from dust and moisture. With integrated ergonomic handles, this container offers convenient portability and organized storage for a wide variety of professional and personal applications.

Technical Specifications
