

Platform Hand Truck with Swivel Casters

This platform hand truck is a robust solution for material handling in industrial and commercial environments. It features a steel frame, a non-slip platform, swivel casters for maneuverability, and an ergonomic handle.

Overview

Robust Material Handling Solution

The PH301 Platform Hand Truck is a versatile and durable solution designed for demanding industrial and commercial environments. Featuring a rugged steel frame and a secure non-slip platform, it ensures safe transport of goods across warehouses, factories, and retail floors. Its ergonomic design and highly maneuverable swivel casters provide excellent control, making it an essential tool for efficient material handling.
