Product Overview

Smart Motion-Sensing Illumination

This plug-in LED night light provides automatic, hands-free illumination perfect for enhancing safety in hallways, bathrooms, and bedrooms. Featuring an integrated motion sensor, it activates only when movement is detected, ensuring energy efficiency and convenience. Its compact design plugs directly into standard wall outlets without obstructing adjacent sockets, offering a reliable lighting solution for indoor spaces.

Technical Specifications

Input Voltage

220 V

Min Voltage

250 V

Max Voltage

Frequency	50/60Hz
Power Consumption	0.4 W
Max Incandescent Load	630 W

Performance Features

Color Temperature 6500K • White	
Time Delay	45 sec
Ambient Light Detection	0-150 LUX

Installation & Usage	
Installation	Plug-in
Recommended Use	Indoor, Hallways, Bedrooms, Bathrooms

General Information	
Country of Origin	China
