Product Overview

Precision Vertical Alignment

This professional-grade plumb bob is engineered for high-precision vertical measurement in construction and alignment tasks. Constructed via one-time forging and precision casting, the solid body maintains its shape and structural integrity even in demanding job site conditions. The design features a centering screw to ensure high concentricity, providing reliable accuracy for every measurement.

Technical Specifications

Model Specifications

Weight	Diameter	Height
300g	46mm	69mm
400g	51mm	76.5mm
500g	56mm	77.5mm

String Length	5 m
