

# Plumbing Angle Valve 1/2"x1/2"

This angle valve is designed for plumbing and HVAC&R applications. It features threaded connections for secure, leak-free installation and a quarter-turn handle for easy on/off control.

Code	Spec.
Y00552	1/2"X1/2"

## ADDITIONAL IMAGES

## Product Overview

### Professional Plumbing Angle Valve

This high-quality angle valve is designed for reliable flow control in plumbing and HVAC&R applications. Featuring a durable construction with a corrosion-resistant chrome finish, it ensures longevity and consistent performance. The quarter-turn handle allows for easy on/off control, making it an ideal solution for connecting water supply lines to fixtures like toilets, sinks, and faucets.

## Technical Specifications

Product Code	Y00552
Connection Size	1/2" x 1/2"
Handle Type	Quarter-turn
Finish	Chrome

## Features & Benefits

### Key Features

- Corrosion-resistant finish
- Easy quarter-turn operation
- Reliable shut-off functionality
- Secure threaded connections

### Suitable Applications

Plumbing, HVAC&R, Toilets, Sinks, Faucets

## Manufacturing Standards

### Quality Commitment

Guaranteed Quality • Cost Efficiency • Green Manufacturing

### Industry Experience

20 years
