Overview

Professional Plumbing Angle Valve

This high-quality plumbing angle valve is engineered for durability and precise water flow control in residential and commercial applications. Built with 20 years of manufacturing expertise, it offers a robust solution for connecting toilets, sinks, and water heaters. The design emphasizes both cost efficiency and sustainable, green manufacturing practices to meet modern industry standards.

Technical Specifications

Connection Size	1/2" x 1/2"
Product Code	Y00546
Operation	Quarter-turn
Suitable Applications	Toilets, Sinks, Water Heaters, HVAC&R Systems

Manufacturing Standards

Manufacturing Advantages

- 20 years of industry expertise
- Large-scale production capacity
- Guaranteed quality control
- Cost-efficient design
- Green manufacturing processes
