Product Overview

Industrial Pneumatic Air Hoist

This pneumatic air hoist is engineered for heavy-duty lifting applications, utilizing compressed air as its primary power source. Its robust design makes it an ideal solution for hazardous and harsh industrial environments, including areas with high temperatures, moisture, or risks of flammability and explosion. It provides precise control and reliable performance for demanding sectors such as automotive, chemical, pharmaceutical, and shipbuilding.

Technical Specifications

Rated Lifting Capacity

6.3 T

Operational Suitability

Environment Suitability

- High temperature environments
- Wet environments
- Flammable environments
- Explosive environments
- Harsh industrial conditions

Target Industries

Automotive, Chemical, Pharmaceutical, Machine Manufacturing, Shipbuilding
