

Pneumatic Angle Sander Polisher

This pneumatic angle sander polisher is designed for detail work and polishing applications. It features a compact and lightweight design for easy maneuverability in tight spaces.

Product Overview

Professional Pneumatic Angle Sander Polisher

This pneumatic angle sander polisher is engineered for precision detail work and high-quality polishing applications. Its compact and lightweight architecture ensures superior maneuverability, making it an ideal choice for operating in confined or complex workspaces. Designed for versatility, the tool supports interchangeable pad systems to accommodate various sanding and polishing requirements across automotive, woodworking, and metalworking industries.

Technical Specifications

Compatible Pad Types

- Velcro Face
- Vinyl Face

Applications

Recommended Industries

Automotive Detailing, Woodworking, Metalworking

Design Features

Key Design Advantages

Compact Design • Lightweight • High Maneuverability
