

# Pneumatic Bicycle Tire

These pneumatic tires are designed for bicycles, providing superior grip and durability. They are available in multiple sizes and tread patterns to suit various riding conditions.

## ADDITIONAL IMAGES

## Overview

### High-Performance Pneumatic Bicycle Tires

These pneumatic rubber tires are engineered for optimal grip and durability across various riding conditions. Constructed with high-quality rubber compounds, they offer enhanced puncture resistance and long-lasting performance for professional and recreational use. The range is suitable for mountain bikes, road bikes, and hybrid bikes, ensuring a smooth and reliable ride.

## Technical Specifications

### Compatible Bike Types

Mountain Bikes • Road Bikes • Hybrid Bikes

### Tire Type

Pneumatic Rubber Tire

### Material Features

High-Quality Rubber Compound, Puncture Resistant, Durable, High Grip

## Size Guide

### Available Diameters (Inches)

- 12.5
- 14
- 16
- 18
- 20
- 24
- 26

### Model & Size Specifications

Model Code	Size (Inches)	H.B. Standard
HF-101	24 × 1.95	54-507
HF-101	26 × 1.95	54-559
HF-107A	24 × 2.10	56-507
HF-107A	26 × 2.10	56-559
HF-174	20 × 2.00	54-406
HF-801	26 × 2.00	54-559
DB-5013	14 × 2.125	57-254
DB-5026	20 × 2.35	60-406
DB-5040	12.5 × 2.25	62-203
DB-5047	14 × 2.40	61-254
