

Pneumatic Nail Gun

This pneumatic nail gun is designed for driving nails into various materials. It operates on compressed air, ensuring consistent power and performance for extended use.

Product Overview

Professional Performance

This pneumatic nail gun is engineered for high-efficiency fastening across various woodworking and construction applications. It utilizes reliable compressed air technology to deliver consistent driving power, ensuring professional results on every project. Designed with user ergonomics in mind, it includes adjustable features and a robust build to maintain productivity during extended work sessions.

Key Features

Core Functionalities

- High-capacity magazine
- Adjustable depth control
- Ergonomic comfortable grip
- Compressed air operation

Technical Details

Power Source	Compressed Air
Primary Applications	Woodworking, Construction, Fastening
