

Pneumatic Nail Gun for Construction

This pneumatic nail gun is designed for driving nails into various materials. It operates on compressed air, delivering consistent power for framing, sheathing, and other construction applications.

Product Overview

Professional Grade Pneumatic Nail Gun

This pneumatic nail gun is engineered for high-performance construction tasks, including framing and sheathing. It utilizes compressed air to deliver consistent power, ensuring reliable performance across various materials. Designed with user comfort in mind, it features an ergonomic grip for extended operation and adjustable depth control for precise fastening.

Technical Specifications

Power Source	Compressed Air
Key Features	High-capacity magazine, Adjustable depth control, Ergonomic grip

Applications

Ideal Applications

- Framing
- Sheathing
- General Construction
