

# Pneumatic Staple Gun for Fastening Applications

This pneumatic staple gun is designed for a variety of fastening applications. It features a durable construction and ergonomic design for comfortable use.

## Product Overview

### Professional Pneumatic Staple Gun

This durable pneumatic staple gun is engineered for versatile fastening applications across upholstery, woodworking, and general construction projects. It utilizes compressed air to deliver consistent, reliable power, ensuring secure fastening with every shot. Designed with user comfort in mind, the lightweight, ergonomic build minimizes fatigue during extended professional use.

## Technical Specifications

Model Type	422J
Staple Size	0.6mm x 1.2mm
Power Source	Compressed Air

## Key Features

Core Features	Adjustable Depth Control, Ergonomic Design, Lightweight Construction, Durable Build
---------------	---

## Applications

### Suitable Applications

- Upholstery
- Woodworking
- General Fastening Projects
