

Pneumatic Stapler for Fastening Applications

This pneumatic stapler is designed for various fastening applications. It features adjustable depth control for precise staple placement and operates at optimal air pressure for consistent performance.

Product Overview

Professional Grade Pneumatic Stapler

This pneumatic stapler is engineered for high-performance fastening across a variety of professional applications, including upholstery, woodworking, and general construction. It features a lightweight yet durable construction paired with an ergonomic handle to ensure operator comfort during extended use. With adjustable depth control, users can achieve precise staple placement for consistent, high-quality results in every task.

Technical Specifications

Key Features

- Lightweight and durable construction
- Ergonomic handle design
- Adjustable depth control
- Compatible with standard staples

Primary Applications

Upholstery, Woodworking, General Construction
