

Pneumatic Wheelbarrow with Metal Tray

This wheelbarrow is equipped with a pneumatic tire, facilitating smooth transport across diverse terrains. It features a durable metal tray and wooden handles.

Product Overview

Robust Material Handling Solutions

This durable pneumatic wheelbarrow is engineered for heavy-duty material handling in construction, landscaping, and gardening environments. Featuring a high-strength metal tray and a single pneumatic tire, it offers excellent maneuverability over uneven terrain. The sturdy wooden handles provide ergonomic support, ensuring comfort and control during intensive hauling tasks.

Design & Construction

Tray Material	Metal
Handle Material	Wood
Wheel Type	Pneumatic
Number of Wheels	1

Key Features

Durability Heavy Duty • Weather Resistant	
Ideal Applications	Construction, Gardening, Material Handling, General-purpose Hauling
