

Point of Sale Terminal with Cash Register

This point-of-sale terminal integrates a cash register system. It is designed for retail and business environments to facilitate sales transactions, payment processing, and inventory management.

Product Overview

Comprehensive Retail Solution

This all-in-one point-of-sale (POS) terminal and cash register system is engineered for efficient retail and business operations. It integrates essential transaction tools, including a keyboard interface, display screen, and dedicated peripherals, to streamline sales, payment processing, and inventory management. Designed for reliability, the system supports modern payment methods and rapid barcode scanning to enhance checkout speed and accuracy.

Hardware Features

Payment Processing

Card Reader • Signature Capture

Input Interfaces
