Product Overview

Professional Polishing Sponge Pad

This high-quality polishing sponge pad is engineered for machine-based abrasive applications, delivering consistent and refined results. Designed for versatility, it is suitable for automotive detailing, woodworking, and various surface finishing tasks. Its durable construction ensures reliability, while the optimized design facilitates efficient buffing and polishing performance.

Technical Specifications

Suitable Applications	Automotive Detailing, Woodworking, Surface Finishing, Buffing
Attachment Type	Threaded mount / Hook and loop backing

Design & Construction

Material Composition

- Durable plastic backing plate
- High-density yellow sponge layer

Key Features

Machine Compatible • Durable Construction • Easy Attachment
