

Polycrystalline Solar Panel Module

This high-efficiency polycrystalline solar module is designed for use in residential, commercial, and utility-scale applications. It features excellent low-light performance and is certified to withstand challenging environmental conditions.

Overview

High-Efficiency Polycrystalline Solar Module

This high-efficiency polycrystalline solar module is engineered for versatile use across residential, commercial, and utility-scale solar projects. It delivers reliable power output and maintains excellent performance even in low-light conditions. Designed for durability, the module is built to withstand challenging environmental factors, ensuring long-term energy generation and investment security.

Technical Specifications

Available Models

- LF 325P6-72
- LF 330P6-72
- LF 335P6-72
- LF 340P6-72
- LF 345P6-72

Dimensions	1956mm x 992mm
Mechanical Load Capacity	5400 Pa
PID Resistance	Yes

Warranty & Certifications

Warranty Coverage

12 years

Workmanship & Materials

25 years

Power Output Warranty

Certifications	ISO9001, ISO14001, OHSAS18001, CE, J-PEC
Power Output Guarantee	80% of rated power after 25 years
