Product Overview

High-Performance Polyester Round Lifting Sling

These circular lifting slings are engineered for safe, reliable heavy load management in construction and industrial environments. Designed with high-tenacity polyester, they offer an exceptional strength-to-weight ratio while remaining soft and flexible for easy handling in tight spaces. The slings feature color-coded identification for quick capacity verification and are fully compliant with international safety standards, ensuring non-conductive and damage-free lifting operations.

Key Features

Key Advantages

Non-conductive, Abrasion-resistant, Color-coded capacity, High strength-to-weight ratio, Soft and flexible, Protective sleeve compatible

Compliance & Standards

Industry Standards

EN1492-2:2000 • JB/T8521-2007

Technical Specifications

Load Capacity and Dimensions

Model	Straight Load (kg)	Knot Load (kg)	Width (mm)
EA-A-01	1000	800	50
EA-A-02	2000	1600	60
EA-A-03	3000	2400	70
EA-A-04	4000	3200	75
EA-A-05	5000	4000	80
EA-A-06	6000	4800	90
