Product Overview

Professional Webbing Slings for Secure Lifting

These polyester webbing slings are engineered for high-performance industrial material handling. The design provides exceptional shock absorption, non-conducting properties, and is non-sparking, making it ideal for use in flammable or explosive environments. Their flexible construction allows the sling to conform to the shape of the lifted object, significantly reducing the risk of damage or rebound injuries during operation.

Technical Specifications

Working Load Limit Range

- 1000 KG
- 2000 KG
- 3000 KG
- 4000 KG
- 5000 KG
- 6000 KG
- 10000 KG
- Up to 300T

Material Characteristics

Polyester, Non-corroding, Non-conducting, Non-sparking, Shock-absorbing

Safety & Maintenance

Safety Guidelines

- Avoid contact with sharp implements
- Use protective sleeves for crude or sharp objects
- Clean with cold water and mild cleaners
- Protect from strong acids and alkalis
