Product Overview

Professional Grade Polyester Webbing Slings

These high-strength 100% polyester webbing slings are engineered for heavy-duty lifting and secure cargo handling. Available in single-ply through four-ply configurations, they offer exceptional durability, flexibility, and resistance to abrasion and UV degradation. Designed with reinforced eyes and optional metal fittings, these slings provide reliable performance for industrial, construction, and rigging applications.

Certifications

CE, GS, TÜV Rheinland Certified

Construction & Design

Heavy-duty webbing featuring high-strength weave and secure metal hook attachment.

Reliable end fittings and high-tenacity polyester ensure stability during transport.

Available Ply Layers

- Single-ply
- Double-ply
- Three-ply
- Four-ply

Eye Configurations

- Flat eye
- Reverse eye
- Eye folded 1/2 from one side
- Eye folded 1/2 from two sides
- Eye folded 1/3

Material

100% High-strength Polyester

Technical Specifications

Our webbing is available in multiple widths and colors to suit specific industrial requirements.

Performance Metrics (Model W01-01)

1000 kg

Working Load Limit

7.5 mm

Approx. Thickness

350 mm

Eye Length

Model Specifications Comparison

Art No.	WLL (kg)	Thickness (mm)	Width (mm)	Min Length (m)	Max Length (m)
W01-01	1000	7.5	25	1.1	100
W01-02	2000	7.5	50	1.1	100

Safety & Application

Adjustable tensioning system with durable ratchet mechanism for secure load restraint.

Safety Factors Available

5:1 • 6:1 • 7:1

Key Features

- Reinforced edges with durable stitching
- Resistance to water absorption
- UV degradation resistance
- High flexibility for load contouring
- Optional metal end fittings
