Product Overview

Versatile Polypropylene Monofilament Rope

This 3-strand twisted monofilament rope is engineered for exceptional durability and performance in demanding environments. It features inherent corrosion and aging resistance, ensuring a long service life without water absorption. Lightweight and economical, it is an ideal solution for industrial, marine, and agricultural applications.

Technical Specifications

Material Characteristics	Corrosion Resistant, Aging Resistant, Waterproof, High Strength, Buoyant
Construction	3-strand twisted monofilament

Logistics and Options

Available Packaging

- Hank
- Bundle
- Reel
- Coils
- Bags

Customization	Yes
