

Polyurethane Foam Dispensing Gun

This professional-grade foam gun is designed for precise application of polyurethane foam. It features an adjustable flow control knob, a non-drip nozzle, and an ergonomic handle.

Product Overview

Professional Foam Application

This professional-grade dispensing gun is engineered for the precise application of polyurethane foam in construction and insulating tasks. Featuring a durable aluminum body with a non-stick Teflon coating, it ensures longevity and easy cleaning. The integrated stainless steel barrel and needle, combined with a copper outlet nozzle, provide reliable performance for sealing gaps and filling cracks.

Construction & Materials

Body Material	Aluminum with Teflon coating
Barrel Material	Stainless steel
Barrel Diameter	12 mm
Outlet Nozzle Material	Copper
Seal Bead Material	PTFE

Key Features

Product Highlights	Non-stick Coating, Corrosion Resistant, Professional Grade, Precision Control
