

Porcelain E26/E27 Lampholder

This porcelain lampholder is a robust and reliable lighting component suitable for various applications. Constructed from high-quality porcelain, it offers excellent heat resistance and electrical insulation.

Product Overview

Robust Porcelain Lampholder

The MS507C porcelain lampholder is a durable and reliable lighting component engineered for both residential and commercial environments. Constructed from high-quality porcelain, it provides superior heat resistance and excellent electrical insulation for long-lasting performance. Featuring a standard E26/E27 medium base, this socket is highly versatile and compatible with a wide array of incandescent, LED, and CFL bulbs.

Technical Specifications

Socket Base Type	E26/E27 Medium Base
Material	Porcelain
Key Features	Heat Resistant, Electrical Insulation, Screw Terminals, Easy Installation

Compatibility

Compatible Bulb Types

- Incandescent
- LED
- CFL

Applications

Recommended Applications

Ceiling Fixtures • Wall Sconces • Pendant Lights
