

Portable 115-Liter Concrete Mixer with Steel Frame

This portable electric cement mixer is suitable for both DIY and professional use. Its durable steel frame ensures stability, while large wheels facilitate easy movement.

Overview

Versatile Portable Mixing Solution

This 115-liter electric concrete mixer is designed for both professional construction sites and demanding home DIY projects. Its robust all-steel frame ensures long-term durability while the integrated large wheels provide excellent job-site mobility. Featuring a safety-focused design with an easy-access power switch, it delivers consistent performance for mixing concrete, mortar, and other essential building materials.

Performance Highlights

Key Performance Metrics

115 L

Drum Capacity

500 W

Motor Power

385 mm

Drum Mouth

Technical Specifications

Model Identifier	QTP4013
Overall Dimensions	120 x 71 x 135 cm
Net Weight	45 kg

Construction & Features

The robust steel frame and large wheels allow for easy transport across various construction site terrains.

Key Features

- Portable electric operation
- Durable all-steel frame
- Large wheels for easy maneuverability
- Safety on/off switch
- User-friendly tilting mechanism
- Fully enclosed motor housing

Frame Material	Heavy-duty Steel
