

# Portable 12V 900A Peak Jump Starter

This portable 12V jump starter provides 900 peak amps, suitable for automotive applications. It includes an auto charger, LED indicator lights, and a work light for roadside repairs.

## Product Overview

### Professional-Grade Portable Power

This portable 12V jump starter is designed for reliable emergency roadside assistance and vehicle maintenance. Featuring a high-output 18Ah AGM battery, it delivers 900 peak amps and 300 cold cranking amps to get vehicles running quickly. Built with safety in mind, it includes industrial-grade clamps, overload protection, and audible reverse polarity alarms to ensure secure operation.

## Performance Metrics

### Peak Amperage

**900 A**

Peak Amps

**300 A**

Cold Cranking Amps

## Battery & Power

Battery Capacity	18 Ah
Battery Type	AGM (Absorbent Glass Mat)
Output Voltage	12 V

## Features & Connectivity

Key Features	Built-in Charger, Overload Protection, Reverse Polarity Alarm, LED Emergency Light, Battery Status LEDs
USB Charging Port	2.1 A

## Construction

Clamp Construction	Industrial-grade with pure copper jaws
