

Portable 12V Air Compressor for Tire Inflation

This portable air compressor is designed for inflating tires and other inflatable items. It features a compact and durable construction, a pressure gauge for monitoring inflation levels, and alligator clips for connecting to a 12V power source.

Product Overview

Compact Power for On-the-Go Inflation

This portable 12V air compressor is engineered for versatility and reliability, making it an essential tool for roadside emergencies and routine maintenance. Featuring a durable, compact design, it easily connects to standard 12V power sources via alligator clips. It is perfectly suited for inflating car tires, bike tires, and various recreational inflatable equipment with ease.

Technical Specifications

Power Source	12V DC
Power Connection	Alligator Clips
Monitoring	Yes
Hose Type	Flexible air hose with standard tire valve connector

Usage & Compatibility

Ideal Applications	Cars, Bicycles, Recreational Equipment
