

Portable 12V Car Hair Straightener

This portable hair straightening iron is designed for use in vehicles. It features ceramic plates for even heat distribution and includes a coiled power cord with a 12V car adapter.

Product Overview

Portable 12V Styling Solution

This portable hair straightener is specifically designed for on-the-go styling, powered directly by a 12V vehicle outlet. Built with durable PA66 shell material and efficient PTC heating technology, it ensures reliable performance and even heat distribution. Its compact design and lightweight construction make it an ideal travel companion for maintaining your style while on the road.
