

Portable 12V Car Tire Inflator with Pressure Gauge

This portable 12V car tire inflator is designed for quick and efficient tire inflation. It features an integrated pressure gauge, a 12V DC power plug, and a durable hose, making it suitable for roadside emergencies.

Product Overview

Reliable Roadside Inflation

This portable 12V car tire inflator is engineered for quick and efficient tire maintenance, making it an essential tool for roadside emergencies and on-the-go adjustments. Featuring a built-in pressure gauge for precise inflation control, it connects directly to your vehicle's 12V power source. Its compact, lightweight design ensures easy storage, while the durable hose provides convenient access to tire valves.

Technical Specifications

Power Source	12V DC
Maximum Pressure	200 PSI
Model Number	O.N.-8282

Certifications & Compliance

Certifications	CE
